

MSH Emergency Department

Zone C RN Role Guide

Last Reviewed: 6/1/22

Responsibilities:

1. Complete Primary Assessment and regulatory screening.
2. Reassess patient every four hours, completing focused assessment.
3. Complete orders as written.

Process:

1. Zone C RN will sign into role in EPIC at start of shift and Vocera.
2. Patients will be self-assigned, alternating round robin for **equal** assignment of patients.

Instructions for receiving patients from Triage:

1. Once patient is identified by Triage or PITT to transfer to Zone C, Concierge will escort patient to Zone C and place patient in lounge.
2. Patient will be roomed in Zone C Patient Lounge.
3. Primary RN will update patient location in EPIC.

Instructions for receiving patients from Zone B:

1. Once patient is identified by PITT to transfer to Zone C, Concierge will escort patient to Zone C and place patient in lounge.
2. Zone B Captain will update patient location to Zone C Patient Lounge.
3. Primary RN will update patient location in EPIC as appropriate.
