

New Infection and Isolation Icons (2025-01)

In the LOS column there are new icons that denote if a patient has an infection and/or an isolation.

3	18:39	Exam 06	Red		72 Y	■ Fall; Other (Scalp hem...	→XP	Fitz...
3	19:47	Exam 08	Gr...		125 Y	■ Gait Problem	Hok...	Alth...

If the patient has an infection status, you will see the red biohazard symbol and if you hover over that icon, the infection will display.

Patient Infection Status							Add New	
Infection	Onset	Added	Last Indicated By	Review	Planned Expiration	Resolved	Specimen Information	
EVD/Lassa/Hemorrhagic Virus	01/21/25	01/21/25	Sarah Morrow			Resolve		
Resolved								

If the patient has an isolation status, you will see the mask icon and the hover will display the patient's isolations.

Patient Infection Status [Add New](#)

None to display

Patient Isolation Status [Add New](#)

Isolation	Added	Added By	Removed
Airborne	01/21/25	Sarah Morrow	Remove

Both icons will display if the patient has an isolation and an infection. The hover will show both statuses.
