

MSH Emergency Department

Welcome Desk BA 1

Last Reviewed: 4/22/2022

Description of Process

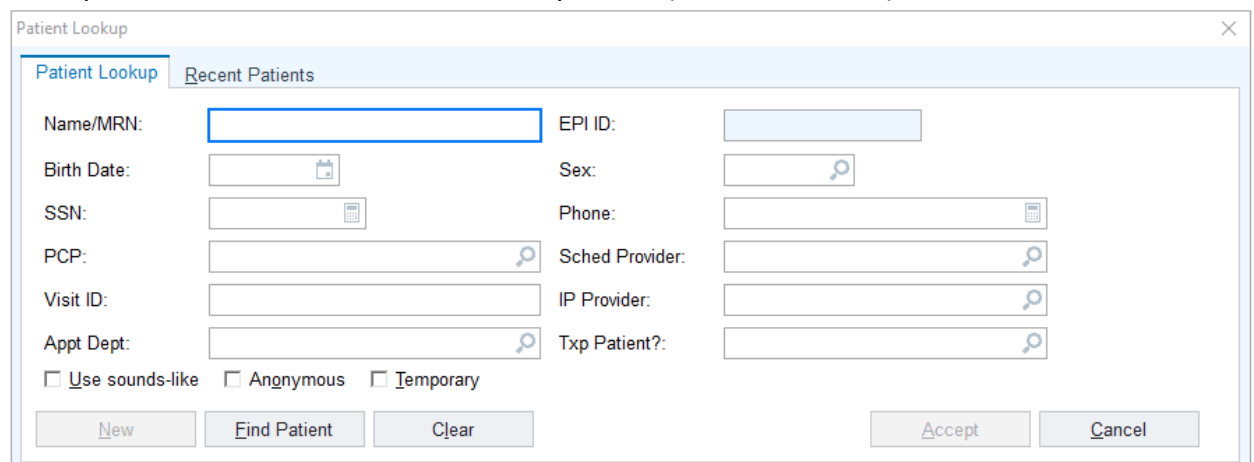

BA 1 is primarily responsible for completing quick registration for patients at the Welcome Desk. BA 1 works with RN 1 to rapidly triage patients to their next destination

Arrival Process

1. Welcome the patient, and introduce yourself
 - o “Hello, I am going to register you. Can I have a form of identification”
2. Ask for identification (State ID preferable) if patient doesn’t have an ID, let patient fill out top of a data form (Name, DOB) to be scanned in system.
3. Click Arrival

4. Enter patient information in Patient Lookup screen(Name, DOB, Sex), click Find Patient

 A screenshot of the 'Patient Lookup' window. The window has a title bar with a close button (X). Inside, there are two tabs: 'Patient Lookup' (selected) and 'Recent Patients'. The 'Patient Lookup' tab contains several input fields: 'Name/MRN:', 'Birth Date:', 'SSN:', 'PCP:', 'Visit ID:', 'Appt Dept:', 'EPI ID:', 'Sex:', 'Phone:', 'Sched Provider:', 'IP Provider:', and 'Txp Patient?'. Each field has a corresponding search icon (magnifying glass). Below the input fields, there are three checkboxes: 'Use sounds-like', 'Anonymous', and 'Temporary'. At the bottom, there are four buttons: 'New', 'Find Patient', 'Clear', and 'Accept'. The 'Find Patient' button is highlighted.

5. Verify patient address and demographical information

6. If patient new click New after verifying.
