

Mount Sinai Health System

Epic Tip Sheet

High Sensitivity Troponin

Emergency Department
Nursing Update November 2022

1. NEXT COLLECTION REMINDER WILL POPULATE IN THE ALERT SECTION OF THE NARRATOR WITH DUE TIME. ALERT WILL TURN RED WHEN DUE, YELLOW WHEN DUE WITHIN 15 MINUTES.

The screenshot shows two windows from the Epic interface. On the left, the 'Narrators' window displays a list of favorites, including 'Lab Draw'. A tooltip for 'Second HS Troponin Timer' shows details: 'Due at: 1000', 'Due in: 25m', 'Active for: 35m', and thresholds for 'Impending after: 45m' and 'Overdue after: 1h 00m'. A yellow box highlights the 'Due in 25m' status. On the right, the 'Alerts (2)' window shows a red 'Overdue' alert for the same timer, indicating it is 'Overdue by 00m'.

2. TRACKBOARD COLUMN (Next HS Trop Collect) HAS BEEN ADDED

This column will show the next collection time.

Patients (124)																																	Blue Pod (9)			Green Pod (1)			Orange Pod (0)			Purple Pod (0)			CPEP (6)			Rad Tracking (0)			Consults (7)			My + Unassigned (121)
