Ī	MCI Job Action Sheet: ED MCI Command		
ĺ	Role: Unit Leader	Assign: Physician in Charge	Alt: Acute 1 Attending

Task	Initial & Time Completed
1. Acute 2 (PIC) Attending assumes role of Unit Leader. Find the Unit Leader Job Action	
Sheet (this document). Read this entire document before you begin responding. You	
are responsible for using this complete response checklist to lead your department.	
2. Find the Unit Leader vest in the Red Emergency Bag and put it on so you can be easily	
identified.	
3. Check in with Deputy Unit Leader and obtain this information to share with Providers	
(e.g., Physician, PA, Resident, Medical Students):	
a. Nature of the incident and Emergency Plan Level	
b. Current situation and incident trend (Better/Worse/Neutral)	
c. Incident priorities and objectives	
d. Resource status and any resource requests	
e. Time of the next huddle	
4. Check in with Medical Director or Admin on Call and share:	
a. Nature of the incident	
b. Current situation and incident trend (Better/Worse/Neutral)	
c. Incident priorities and objectives	
d. Resource status and any resource requests	
i. Activate attending sick call as needed	
ii. Notify Residency Leadership and/or Sick Call Chief of backup resident	
needs	
iii. Notify PA Chiefs and/or Sick Call PAs of additional PA needs	
e. Time of the next huddle	
5. At huddles, gather the below information from Treatment Leads and Security Officer:	
a. Safety concerns / critical patient care or operations issues	
b. Items listed on the Nursing Situation Status Report	
c. Physical damage or other immediate threats to the building/systems in area	
d. Resource shortages	
1. Staff (current and future shifts)	
2. Supplies and Equipment	
3. Space	
e. Determine the MSH ED's current and anticipated capabilities:	
Fully functional / Partially functional / Non-operational	
6. Assign staff to the roles below and manage all staff and activity on your unit throughout	
the incident with direction from Incident Command.	
a. Routinely huddle with leadership and staff to maintain situational awareness	
b. Complete situation reports and other tasks as directed by Incident command	
c. Ongoing Response: Repeat steps 4, 5, 6, and 7	

Role	Responsibilities	Assignment
Resus Treatment	Evaluates and treats patients in RESUS	
Team Physician	This can be an EM PGY3/4, senior PA, or attending	
Acute 1 Treatment	Evaluates and treats patients in ACUTE 1	
Team Physician	This can be an EM PGY3/4, senior PA, or attending	
Acute 2 Treatment	Evaluates and treats patients in ACUTE 2	
Team Physician	This can be an EM PGY3/4, senior PA, or attending	
Mid Fast Treatment	Evaluates and treats patients in MID FAST	
Team Physician	This can be an EM PGY1/2/3/4, junior or senior PA, or attending	
Pediatrics Treatment	Evaluates and treats pediatric patients	
Team Physician	This can be a Peds EM or EM attending or a PGY4 if necessary	

MCI Job Action Sheet: ED MCI Command		
Role: Deputy Unit Leader	Charge Nurse	Alt: Assistant Nurse Manager

Tas	Task		
	Charge Nurse assumes command of the Emergency Department as Deputy Unit Leader. Find the Deputy Unit Leader Job Action Sheet (this document). Read this entire document before you begin responding. Ensure PIC Attending (Acute 2 Attending) assumes position of Unit Leader and receives corresponding Job Action Sheet. You will be responsible for using this complete response checklist to lead your department.		
2.	Find the Deputy Unit Leader vest in the Red Emergency Bag and put it on so you can be easily identified.		
3.	Escalate notification to departmental and hospital leadership as appropriate: a. Call ED Nursing Director or Nursing Admin b. Unit Leader to page ED Medical Director or Admin on Call c. BA to notify key areas of the MCI – escalate any issues to Administrative Supervisor

7.	Check in with ED Medical or Nursing Director and obtain this information to share with staff: a. Nature of the incident and Emergency Plan Level b. Current situation and incident trend (Better/Worse/Neutral) c. Incident priorities and objectives		
8.	d. Resource status and any resource requests Ongoing response: repeat steps 4, 5, 7		

Role	Responsibilities	Assignment
Unit Leader	Physician in Charge (Acute 2 Attending)	
Liaison Officer	Assistant Nurse Manager	
Safety Officer	Security Supervisor	
Administrative Supervisor	Administrative Director	
Logistics Supervisor	Operations Manager	
Triage Supervisor	Triage RN 2	
Treatment Team RN Leads	RN lead per area to work with Physician/PA Treatment	
- Resus	Leads – in coordination with Unit Leader	
- Acute 1		
- Acute 2		
- Mid Fast		
- Pediatrics		

MCI Job Action Sheet: ED MCI Command			
	Role: Liaison Officer	Assigned: Assistant Nurse Manager	Alt: Lead RN

Tas	sk	Initial & Time Completed
1.	Deputy Unit Leader will designate a Liaison Officer. When you are assigned this position, find the Liaison Officer Job Action Sheet (this document). Read this entire document before you begin responding. You will be responsible for using this complete response checklist to perform your job.	
2.	Find the Liaison Officer vest in the Red Emergency Bag and put it on so you can be easily identified.	
3.	Check in with the Unit Leader and obtain this information: a. Nature of the incident and Emergency Plan Level b. Current situation and incident trend (Better/Worse/Neutral) c. Incident priorities and objectives d. Resource status and any resource requests e. Time of the next huddle	
4.	Remain in the ED Command Center (Shelly Jacobson Conference Room).	
5.	Handle communication via phone, radio or other means between Unit Leader and: a. Hospital Command Center b. ED Nursing Leadership c. Admitting & Throughput d. Environmental Services e. Morgue f. Patient Transport g. Security Department h. Outside agency representatives of FDNY EMS, FDNY, NYPD i. Other personnel as directed by the Unit Leader	
6.	Track the arrival of inpatient clinical team leaders (surgery, medicine, ICU) and confirm with Unit Leader where assistance is needed:	
7.	Gather information from Epic and Treatment Team Leads regarding ED census, status of patients and need for transport a. In event Epic is down, initiate Downtime Procedures in coordination with Administrative Supervisor (see MCI Patient Log in Teams) b. All patients must be entered on the log upon entering the ED c. A Log entry must be made whenever a patient leaves the ED d. No patient should enter or leave the ED without you knowing Ongoing: Repeat steps 3 to 7	
8.	Oligoliig. nepeat steps 5 to 7	

MCI Job Action Sheet: ED MCI Command		
Role: Safety Officer	Assigned: Security Supervisor	Alt: Security Supervisor Designee

Tas	Task	
		Completed
1.	Deputy Unit Leader will designate a Security Officer. When you are assigned this	
	position, find the Safety Officer Job Action Sheet (this document). Read this entire	
	document before you begin responding. You will be responsible for using this complete	
	response checklist to perform your job.	
2.	Find the Safety Officer vest in the Red Emergency Bag and put it on so you can be easily	
	identified.	
3.	Check in with the Unit Leader and obtain this information:	
	a. Nature of the incident and Emergency Plan Level	
	 b. Current situation and incident trend (Better/Worse/Neutral) 	
	c. Incident priorities and objectives	
	d. Resource status and any resource requests	
	e. Time of the next huddle	
4.	Initiate lockdown of Emergency Department by taking the following steps:	
	a. Clear Emergency Department of visitors if safe to do so. Additional visitors are	
	not permitted during duration of the event.	
	b. Direct anyone not seeking medical care (but, for example, looking for family	
	members) to Hess Building. Connect with Liaison Officer to request need for	
	Social Work presence at Hess to assist with family members.	
	c. Ensure Security officers are posted at each point of entry and exit.	
	d. Monitor entry into department of hospital staff.	
	e. Ensure Position Identification Vests are worn as appropriate.	
5.	Work with Treatment Team leads for any patients who are ready for discharge to	
	ensure it is safe for patients to leave department and building.	
	a. Any patients who are discharged but are not safe to leave should be directed	
	to safe location in hospital as determined by Command Center.	
6.	Discuss safety concerns with the ED staff and Command staff and collect the below	
	information to report to the Unit Leader:	
	a. Safety concerns / critical patient care or operations issues	
	b. Physical damage or other immediate threats to the building/systems in area	
	c. Resource shortages affecting department safety	
	d. Determine the MSH ED's current and anticipated capabilities:	
_	Fully functional / Partially functional / Non-operational	
/.	Observe operations in the department and repeat steps 3, 4 and 5	

MCI Job Action Sheet: ED MCI Command		
Role: Administrative Supervisor	Assigned: Administrative Director	Alt: Operations Supervisor

Tas	sk	Initial & Time Completed
1.	The Administrative Director will assume the role of Administrative Supervisor. After being assigned this role, find the Administrative Supervisor Job Action Sheet (this document). Read this entire document before you begin responding. You will be responsible for using this complete response checklist to perform your job.	
2.	Find the Administrative Director vest in the Red Emergency Bag and put it on so you can be easily identified.	
3.	Check in with the Unit Leader and obtain this information to share with the BA staff a. Nature of the incident and Emergency Plan Level b. Current situation and incident trend (Better/Worse/Neutral) c. Incident priorities and objectives d. Resource status and any resource requests e. Time of the next huddle	
4.	Inform BA Staff of protocol for registration of MCI patients: a. Use Epic to register patients using the MCI designation: i. Under Arrival, go to Disaster section and click "Yes" when asked "Is this patient related to a Mass Casualty or Disaster?" ii. This will denote MCI patients with a "D" on Trackboard b. For unknown patients, follow the standard unknown patient policy. c. If Epic is non-functional, notify the Unit Leader and initiate Downtime Procedures in coordination with Liaison Officer.	
5.	Work with Liaison Officer to coordinate discharge of patients and assure they are accounted for either in Epic or in MCI Patient Log in Teams prior to discharge. a. Ensure safety of patients on discharge in coordination with Safety Officer	
	Assign BAs to each treatment area and arrival zone. Additionally, assign BAs to alternate staffing locations as needed based upon discussions with the Unit Leader. Provide Liaison Officer with initial and updated ED census reports	
8.	Ongoing Response: Repeat steps 3 through 7	

MCI Job Action Sheet: ED MCI Command
